

simply distribute.

Distributions to date:

\$8,000,483.00

Distributions in 2020:

\$496,000.00

It is the heart of this organization  
to, quite simply, distribute assets  
that change our world.

## About Simply Distribute

---

Since 2004, Simply Distribute Charitable Foundation has contributed millions of dollars to its designated

supported organizations. The Foundation's main mission

is to receive, maintain and administer assets exclusively for

the purpose of supporting medical, religious, scientific and

educational activities throughout the world. Distributions are

strongly influenced by specific projects. Gifts are intended to

be project driven to hold recipients accountable for showing

immediate social impact. The Foundation cares about the

improvement of humanity and is concerned for human

interest. As a supported org-charity, Simply Distribute remains

unique and unprecedented; successful business men and

women with a social conscious intending to enhance the lives

of others.

## **THEIR MISSION: HEALING THE SICK AND PROCLAIMING THE KINGDOM OF GOD**

Today, ninety percent of people living in low- and middle-income countries (LMICs) around the world don't have access to even basic surgical care. For those living with disabilities, accessing quality healthcare is even more difficult. This results in minor treatable disabilities becoming permanent, debilitating conditions.

Starting with their first hospital in Kijabe, Kenya, they've focused on meeting the immediate needs of children with treatable disabilities like bowed legs, burn contractures, hydrocephalus, and other condition (both congenital and acquired), while also addressing long-term needs by creating sustainable programs to train local medical professionals in country. CURE hospitals and pediatric specialty programs currently operate in 15 countries around the world, providing charitable medical and surgical care to patients regardless of gender, ethnic background, and/or religious affiliation.

## **HEALING CHANGES EVERYTHING**

Over the last three years, Simply Distribute (SD) has focused on supporting CURE in four specific areas:

---

### Cure Nuero

CURE Nuero represents the training, treatment, research, and spiritual ministry CURE facilitates with its partners to help ensure children with neurological disabilities survive and thrive. Simply Distribute has focused on donations to facilitate surgeries for Hydrocephalus and Spina Bifida.

### Clubfoot Surgeries

The Global Clubfoot Initiative (GCI) states that, one in every 806 children born worldwide will suffer from clubfoot, a condition that twists the foot downward and inward. 90% of children with this condition are born in LMICs like Ethiopia, where treatment is either unavailable or antiquated.

### Neurosurgical Fellowship

CURE recognizes the critical need to invest in training, developing, and equipping surgeons in order to elevate the quality and availability of expert care for children throughout each country where they serve. One way in which this accomplished is through a tremendous relationship with the University of Cape Town in South Africa.

### Clean Water Supply for CURE Hospital

The municipal water supply at CURE Ethiopia Children's Hospital (CECH) was erratic and unreliable, which negatively impacted the ability to provide care to patients and even led to canceled surgeries. Through SD, an engineering study was completed, water quality testing and monitoring was carried out, the water supply was upgraded and a filtration system was installed.

A HEALTHY CHURCH TRANSFORMS COMMUNITIES AND ENTIRE NATIONS

## Churches Change Communities

Through vital outreach ministries

Bible Studies

Food Distribution

Medical Clinics

Education

Emergency Shelter

Children's Day Care

Orphan Care

Vocational Training

Addiction Recovery

Trafficking Rescue

ICM's strategy consists of working together with indigenous partners to build "mother churches" and orphanages in each country. The strategy involves building new churches and orphanages approximately 25 miles from one another. Each of these "mother" churches and orphanages, in turn, commits to planting at least five "daughter" congregations and orphanages nearby. ICM's goal is to "blanket" each nation with their projects.

ICM also coordinates with other charitable organizations to ensure that communities can be transformed. Many times, organizations will not be able to bring aid to severely impoverished nations unless there is a secure building. ICM partners with these communities to build these buildings.

Over the last three years, Simply Distribute (SD) has focused on supporting ICM through:

---

## Brazil Prison Ministry & Radio Broad Cast

Brazil is the fifth largest country in the world both in area and population. It has the sixth largest economy. Poverty remains high and crime rampant with Brazil having the third largest prison population in the world .Using the Mini Bible College (MBC) program, many prisoners have found a hope in Jesus. They listen to lessons and complete 14 workbooks, earning a certificate that helps their chances of release. The program has been successful in Brazil for the last few years and many prisons are now requesting the material.

To date, 272 Brazilian radio stations have agreed to transmit MBC lessons on their stations. This means that 52 million listeners will receive the gospel, encouragement and hope across the country of Brazil.

## Church Building & Pastoral Training in Asian Countries

The words of the Ethiopian to Philip in the book of Acts are echoed in China and other Asian countries: “Without someone to explain it to me, how can I understand?” One of our partners in China estimates that there is only one trained pastor for approximately every 60,000 Christians in China. If the gospel is to continue to spread in China, it is vital that Chinese pastors get the training they need to accurately teach the Bible and lead their churches.

## CURE & ICM Partnership

ICM often partners with other organizations to efficiently effect positive change. SD supported a CURE/ICM partnership to supply the families that are treated in CURE hospitals with biblical materials they are then able to take back to their communities.

HAGGAI  
INTERNATIONAL

## Our Model

SELECT

EQUIP

MULTIPLY

ENCOURAGE

Haggai carefully selects proven, credentialed leaders from Asia, Africa, Latin America, and the Middle East and train them to impact their world for Christ. Their training program – unique, powerful, and found nowhere else – gives existing leaders from developing nations the inspiration, the focus, and the sheer can-do to impact whatever world they influence, be it nation, city, neighborhood, company, non-governmental organization, or church.

The acquisition of essential skills and the practical, how-to solutions for communicating the Gospel allow these leaders to proclaim the Gospel boldly in complex, sometimes hostile environments. Together – as alumni, donors, faculty, volunteers and staff – they strive to give everyone on earth the chance to hear the Gospel – by word and action – in terms they can understand, by their own people who know their country, its culture and its people best.

Over the last three years, Simply Distribute (SD) has focused on supporting HAGGAI International through:

## Translation of Educational Materials in Arabic for Staff

Recently, Simply Distribute Charitable Foundation has been a part of developing leaders in the Middle East by providing support for faculty training & translating educational materials into the various Arabic dialects.

## Middle Eastern Sponsorships

Leaders are immersed in HAGGAI's life-changing, transformational experience.

- Leaders are equipped with tools and techniques to effectively demonstrate and present the Gospel by successful and internationally recognized non-Western faculty.
- Equipping occurs in four locations around the world and in four of the mostly commonly spoken languages. The equipping experience is a multi-week immersive process.

**OPPORTUNITY**  
International

By providing financial solutions and training, they empower people living in poverty to transform their lives, their children's futures and their communities.

Opportunity International designs, delivers, and scales innovative financial solutions that help families living in extreme poverty build sustainable livelihoods and access quality education for their children. We equip families with the tools and training they need to build their businesses, improve their harvests, provide for their families, send their children to school, and break the cycle of poverty.

## FOUR AREAS OF FOCUS

**AGRICULTURE FINANCE**

**INNOVATIVE PROGRAMS**

**EDUCATIONAL FINANCE**

**MICRO BANKING**

Over the last three years, Simply Distribute (SD) has focused on supporting Opportunity International through:

---

### Opportunity in Columbia

After 50 years of conflict, an estimated 7 million Colombians have been displaced and thousands of ex-combatants are reintegrating into society as civilians. Securing good economics and educational opportunities for all is critical for helping build sustainable communities and lift some of the most vulnerable families out of poverty.

### Opportunity in Democratic Republic of the Congo

The Democratic Republic of the Congo (DR Congo) is one of the most populous countries in Africa, and one of its poorest. Nearly three out of four people live on less than \$1.90 per day, representing one of the largest populations in the world living in extreme poverty. Women and girls especially face systemic discrimination and ostracism.

Through SD's support, Opportunity helped DR Congo communities and families improve farming techniques,

create jobs through new businesses via micro-loans, and investing in the next generation through EduFinance. EduFinance is a program based around education quality services for children and families.

Agnes Kisandala uses loans and training to grow her small vegetable and banana farm outside of Kinshasa, Democratic Republic of Congo.

### Pakistan Educational Finance Initiative

SD has supported Opportunity's Education Finance Initiative in Pakistan. This program provides a clear dual benefit: jobs are created for a broad spectrum of people, including school proprietors, teachers, construction workers, maintenance crew, cooking staff, bus drivers, etc. Secondly, it provides quality education for some of the poorest children in the world- those who can't afford private education designed for the affluent; are not being educated at the dysfunctional public schools, with 75 kids in a class and where teachers show up only half the time; and must walk up to 2 hours a day to get to the nearest school.

COMMUNITY.

Helping to provide media tools, training, strategies and resources for abundant follow through evangelism in every needed language.

Year Founded: 1979

Ministry Presence: JESUS Film has been seen in every country in the world and translated into hundreds of languages.

CHANGED LIVES.

Over the last three years, Simply Distribute (SD) has focused on supporting Cru:

## Extending Hope to the Hopeless in Jordan

This small country has been flooded with over 1.4 million refugees from Syria and Iraq. Approximately 20% live in camps; the rest are scattered about the country. The Cru staff in Jordan has a unique opportunity to bring hope in the midst of hopelessness for refugees which include orphans, women, and entire families. Through SD's support, CRU is able to support refugees through humanitarian aid, food distribution, health care, and literature distribution.

## 'Why Not Campaign' in Egypt

The 'Why Not Project' is used to reach out to over 6 million Egyptian students through social media, namely Facebook. The Facebook page is in Egyptian Arabic, and with over 15,200 followers this page is able to spread the gospel through short films and clips from CRU's Jesus Film Initiative.

## Turkish Satellite Television Broadcast

Turkey has been identified as having one of the smallest number of churches considering its population (80 million people). Presently there are only about 6,000 national believers. Turkey is 99 percent Muslim, so broadcasting JESUS presents a rare opportunity to reach them for Christ. However, four television stations, broadcasting via satellite and reaching about 60 million viewers, have expressed a willingness to air the JESUS film on three separate dates, one of which is during the Christmas season. Afterward, viewers can choose to visit a website where volunteers will follow up with them, share the gospel, and begin discipling those who choose to accept Jesus as Savior.

## National Christian FOUNDATION

---

From the simplicity of the Giving Fund to the multiplying power of Asset-Based Giving, National Christian Foundation's creative solutions help givers experience less paperwork, fewer taxes, more joy, and more impact for the charities they really care about. At NCF, they serve professional advisors, ministries and churches in exciting ways. The result? Since 1982, more than \$6 billion in grants has been sent to over 40,000 charities.

Through NCF, Simply Distribute has donated to two charitable organizations.

**I WAS  
HUNGRY**

A partnership of Crown Financial Ministries  
and Foundations for Farming.

---

Crown Financial Ministries and Foundations for Farming have combined forces with their proven methodologies to serve those dependent upon the land by empowering the people to be the best farmers in the world, to learn to operate as a God designed family and to faithfully steward their local resources.

We train farmers to steward both their land and the harvest from the land. We do this by teaching agricultural skills which bring about a substantial increase in crop yields and by financial training to manage the increase in resources. We also include a training component by Family Impact to strengthen the family unit. All three components are vital to bringing an end to hunger, dependency and poverty.

## Other Organizations that Simply Distribute Supports

**BRIDGE<sup>2</sup>**  
R W A N D A

Since 2011, the Bridge2Rwanda Scholars Program has helped over 100 African students earn more than \$22 million in scholarships. Their mission, however, goes beyond earning international scholarships. We are committed to building a fellowship of globally educated professionals working in Africa, prepared for extraordinary lives as entrepreneurs and servant leaders.

The 4th class of 32 B2R Scholars earned over \$9 million in scholarship funding to top universities around the world. About 25% of this year's Scholars were awarded admission to Ivy League universities. This brings us to a total of approximately 100 students who have earned over \$22 million in scholarship funding since the program began in 2011.

The 5th class of B2R Scholars was selected and launched with 42 students- the largest class yet. The new B2R Scholars class includes students from historically conflict-torn countries in Africa, including: Rwanda, South Sudan, Burundi, Democratic Republic of Congo, and Liberia.

making a difference.
